Abstract

Dogar Coin (DGC) is a community-driven cryptocurrency built on the Binance Smart Chain (BEP-20) with the goal of delivering a decentralized, secure, and rewarding digital asset for its holders. With a fixed total supply of **200 billion tokens**, DGC is designed to offer rewards, fast and low-cost transactions, and financial independence for everyone involved.

This whitepaper outlines our vision, mission, tokenomics, roadmap, and future development strategies. We're focused on fostering a strong, engaged community, supporting DeFi integration, and continuously evolving the DGC ecosystem through partnerships, listings, and innovation.

1. Introduction

Dogar Coin (DGC) represents a fresh step toward decentralized financial freedom. Built on the Binance Smart Chain, DGC is a fixed-supply digital token created for trading, staking, and long-term holding. It's designed for simplicity, accessibility, and scalability, empowering both experienced crypto enthusiasts and newcomers.

In a rapidly evolving digital finance world, DGC embraces the power of blockchain, combining speed, security, and transparent governance. Our holders will benefit from staking opportunities, a deflationary model, and utility-driven value.

Core Focus Areas:

-  Trading & Exchange Listings
-  Staking Rewards for Holders
-  DeFi Integration & Use-Cases
-  Community-Based Governance

2. Mission & Vision

Mission

To empower individuals and communities with a decentralized, transparent, and profitable cryptocurrency through secure staking, low-cost transactions, and active community participation.

Vision

To position Dogar Coin (DGC) as a trusted and top-tier BSC token within the DeFi ecosystem, enabling financial freedom and long-term value creation for every holder.

3. Tokenomics

Category	Allocation	Purpose
Public Sale & Exchange Listings	40%	Liquidity & Trading
Staking & Rewards	25%	Incentivize Long-Term Holding
Development & Ecosystem	15%	Technical Growth
Marketing & Partnerships	10%	Brand Expansion
Team & Founders (Vested)	5%	Long-Term Commitment
Reserve Fund	5%	Emergency Use

Total Supply: 200,000,000,000 DGC

Deflationary Mechanism: A small portion of transaction fees will be burned periodically to reduce supply and increase scarcity over time.

4. Blockchain & Technology

Dogar Coin is built on **Binance Smart Chain (BEP-20)** to ensure:

-  **Ultra-Low Fees** – Transactions typically cost less than \$0.01
-  **Fast Speeds** – Block times of 3–5 seconds

-  **Secure Smart Contract** – Audited & Transparent
-  **DeFi Compatibility** – Easily integrated with leading platforms
